Education

PMAS Arid Agriculture University   Rawalpindi, Pakistan
Bachelor Of Software Engineering   2021 — 2025

Professional Experience

MERN Stack Developer at DevRolin July 2025 — Present

At DevRolin, I worked extensively with **MERN Stack** to build responsive, user- friendly, and high-performing web applications. My role involved designing interactive UIs, integrating APIs, and ensuring optimized performance across multiple projects.

Key Projects:

JewelRolin (E-commerce Website): Developed a modern jewelry e-commerce platform with product listings, shopping cart functionality, and secure checkout, leveraging REST APIs for dynamic data.

BizRolin (Company Website): Designed and implemented the official website for BizRolin Software House, focusing on clean UI/UX, responsive layouts, and fast load times.

Real Estate Website: Built a real estate platform with property listings, filtering options, and interactive UI components, connected to APIs for live data management.

Practice & Client Projects: Created multiple practice projects and client-based applications to strengthen expertise in React components, hooks, state management, and API integration.

Digital Empowerment Network (Remote)

4 weeks Remote Internship in Front-end development at DEP — Aug 2024
Applied clean architecture and state management with modern UI design, enhancing features through user feedback and performance testing

Academic Experience

Final Year Project – MealTime (Nov 2024 – Jul 2025)

A Web Application connecting Home Chefs and Corporate Companies
Tools and Technologies Used:
React JS, Tailwind CSS, MS SQL, EF Core, .NET Core, VS Code, VS Studio, GitHub, SQL Server Management Studio
Role: Lead Developer
Led technical design and team coordination for a major academic Web project
- Spearheaded a three-member team to develop a real-time Flutter app
- Designed role-based access and alerts, boosting engagement and efficiency by 50%

Certifications and Online Courses

Diploma of Information Technology – Union Academy (Hangu, Pakistan)
Developed and deployed cross-platform Web Applications with responsive UI

Certified in Front-end Development (Jun — Aug 2023)
Engineered scalable front-end development with responsive design and clean architecture principles

Additional

- **Technical Skills:** React JS, JavaScript, Tailwind CSS, [Node Js](#) , [Express Js](#) , MongoDB Verse, Git, State Management, VS Code
- **Interests:** Web Development, Reading Books, Community Tech Solutions
- **Languages:** Pashto, Urdu, English
